

## Proposed IP Camera Set up for MK9 3PW

### List of Equipment Required

Description	Quantity	Cost
Security Camera WiFi Battery connected to charger in wall light	9	900
256 GB MicroSD Card	9	225
USB charger connected to the 240V lighting supply	9	270

Cameras have 256GB micoSD. Any video will be stored locally on the cameras. Once the 256GB is used up oldest data is overwritten. The cameras can be accessed over the internet by anyone that is on the same network or anyone that has the Camera App on their Smart Phone. This allows remote access from anywhere in the world. All residents and leaseholders can have access. Access can be shared with anyone, on a time limited basis. Each camera acts as its own server and can send emails with video clips to any email address. Each camera allows two-way conversation with a detected person. Camera's are powered by USB chargers identical to most phone chargers.

Envisioned total cost less than 2000 GBP
